

# SOFTWARE FACT SHEET

# Jet Enterprise

Product overview	Jet Reports is a reporting and BI solution which was MADE for Dynamics ERP – we work directly with Microsoft. Jet Reports is tested and repeatedly implemented with AX, NAV and GP to work right out of the box with pre-built reports, dashboards, cubes, automated data warehousing and an intuitive design. Jet offers Reporting, business Analytics, Mobile, Collaboration and Sharing. The Jet data Manager is a world Data Automation platform allowing you to combine almost any data-source.
